HOW TO USE OUR MOCKUP

WE RECOMMEND USING
THE LATEST VERSION OF
ADOBE PHOTOSHOP

Visuel Colonie

Thanks for choosing us!

STEP 1

In Photoshop, open our PSD mockup file. Find Smart Object layer from the layers panel. Its name is YOUR DESIGN HERE. Double click on its thumbnail.

STEP 3

After insert your design, save the file (Ctrl/cmd + S) and close the window (Ctrl/cmd + W). You should see your design is pasted into the mockup.

STEP 2

A new window will appear. This is the place where should insert your design.

STEP 4

Done! Now save and export the project as Jpg and share to the world.
